

Supporting Honeywell's Health, Safety and Environmental (HSE) Needs *Easy-to-Access Global Industrial Hygiene and Safety Expertise*

As a Key Global Account, Bureau Veritas places high value on our partnership with Honeywell. This document is presented to provide our contracting mechanism, the types of support that Bureau Veritas can provide, along with dedicated Honeywell contacts within Bureau Veritas.

Current Contract

Effective December 7, 2016, Bureau Veritas and Honeywell entered a Master Services Agreement to perform Global Safety and Industrial Hygiene Services for Honeywell. This agreement can be used by any Honeywell entity to contract all Bureau Veritas HSE services. These entities include Honeywell's Four Strategic Business Groups (SBG): Aerospace (including Transportation Systems), Home and Buildings Technologies, and Performance Materials & Technologies.

Services to Support Honeywell

Primary Services

- Industrial Hygiene (IH) Exposure Assessments conducted for chemical agents, physical agents, indoor air quality, and illumination. Samples to be analyzed by Bureau Veritas' Laboratory as approved by Honeywell.
- Ergonomic Evaluations and Ergonomics Program Review
- Machine Safeguarding Risk Assessments

Miscellaneous Services

- Personal Protective Equipment Hazard Assessments
- Fall Protection Risk Assessments
- Slip, Trip, Fall Program Review
- Hand and Power Tool Program Review
- Combustible Dust Assessments
- Lock, Tag, Try Program Review
- Electrical Safety Program Review
- Asbestos Building/Process Survey
- Emergency Preparedness Review
